- Phase III: Report

SUCCESS + Project

Geotab Pilot Study

September 4, 2018

Geotab Pilot Study

- The State of Utah Division of Fleet Operations has completed the first full year of their Geotab telematics pilot.
- This report reviews: findings discovered, best practices developed, areas of improvement they plan to achieve, and overall cost analysis of the program thus far and estimated in the future.

Governor's Report

Objectives Defined

- Reduce Fuel Costs
- Reduce Maintenance Costs
- Reduce Accident Costs
- Reduce Unnecessary Fleet Vehicles
- Increase Productivity

Telematics Defined

- The Gathering, transmitting, storing, and processing of vehicle data for the purpose of tracking and monitoring vehicle measurements and utilization.

Short-Term Tactics

- *Fuel Savings:*
 - Discourage unnecessary idling and excessive speeding
- *Maintenance Savings:*
 - Proactively manage check engine light alerts and low battery notifications.
- *Accident Savings:*
 - Real-time driver alerts increase seat belt usage.
 - Reduction of speeding and aggressive driving behavior
- *Underutilization:*
 - Analyze utilization on miles including number of days.

Obstacles

- *Logistics:*
 - Distance, weather and total number of units
- *Installation:*
 - Trouble shooting poor installations.
 - Standards for the differing types of vehicles
 - Best practices learned
- *Training:*
 - Training took place in stages
 - Delay in seeing results
- *Policy:*
 - Longer than expected time creating rules and policies to govern telematics.

Results from Pilot Group

Savings Summary

	Fuel Savings	Maintenance Savings	Safety Savings	Total Savings	Cost of Telematics
Cumulative Monthly	\$11,540.00	\$7,500.00	\$4,763.00	\$23,803.00	\$21,547.00
Cumulative Annually	\$138,460.00	\$90,000.00	\$56,760.00	\$285,220.00	\$258,567.00
Per Device per Month	\$10.60	\$6.90	\$4.30	\$21.80	\$19.75

Results from Pilot Group

	\$ Cost Per Vehicle Per Month
Device Cost	0.00
Device Service Cost	-19.75
Device Administration Cost	-5.50
Device Installation Cost	-0.50
Commercial Maintenance Savings	11.20
Internal Maintenance Savings	2.34
Fuel Cost Savings	14.80
Accident Savings	2.12
Total	4.71

Future Savings and Success

- *Predictive Analytics:*
 - Battery Failure
 - Accidents
 - Maintenance
- *Smart State Insights:*
 - Traffic flow and considerations (i.e. potholes, roadside temperatures, signal optimization)
 - Real time pollution data

Life Cycle Audit

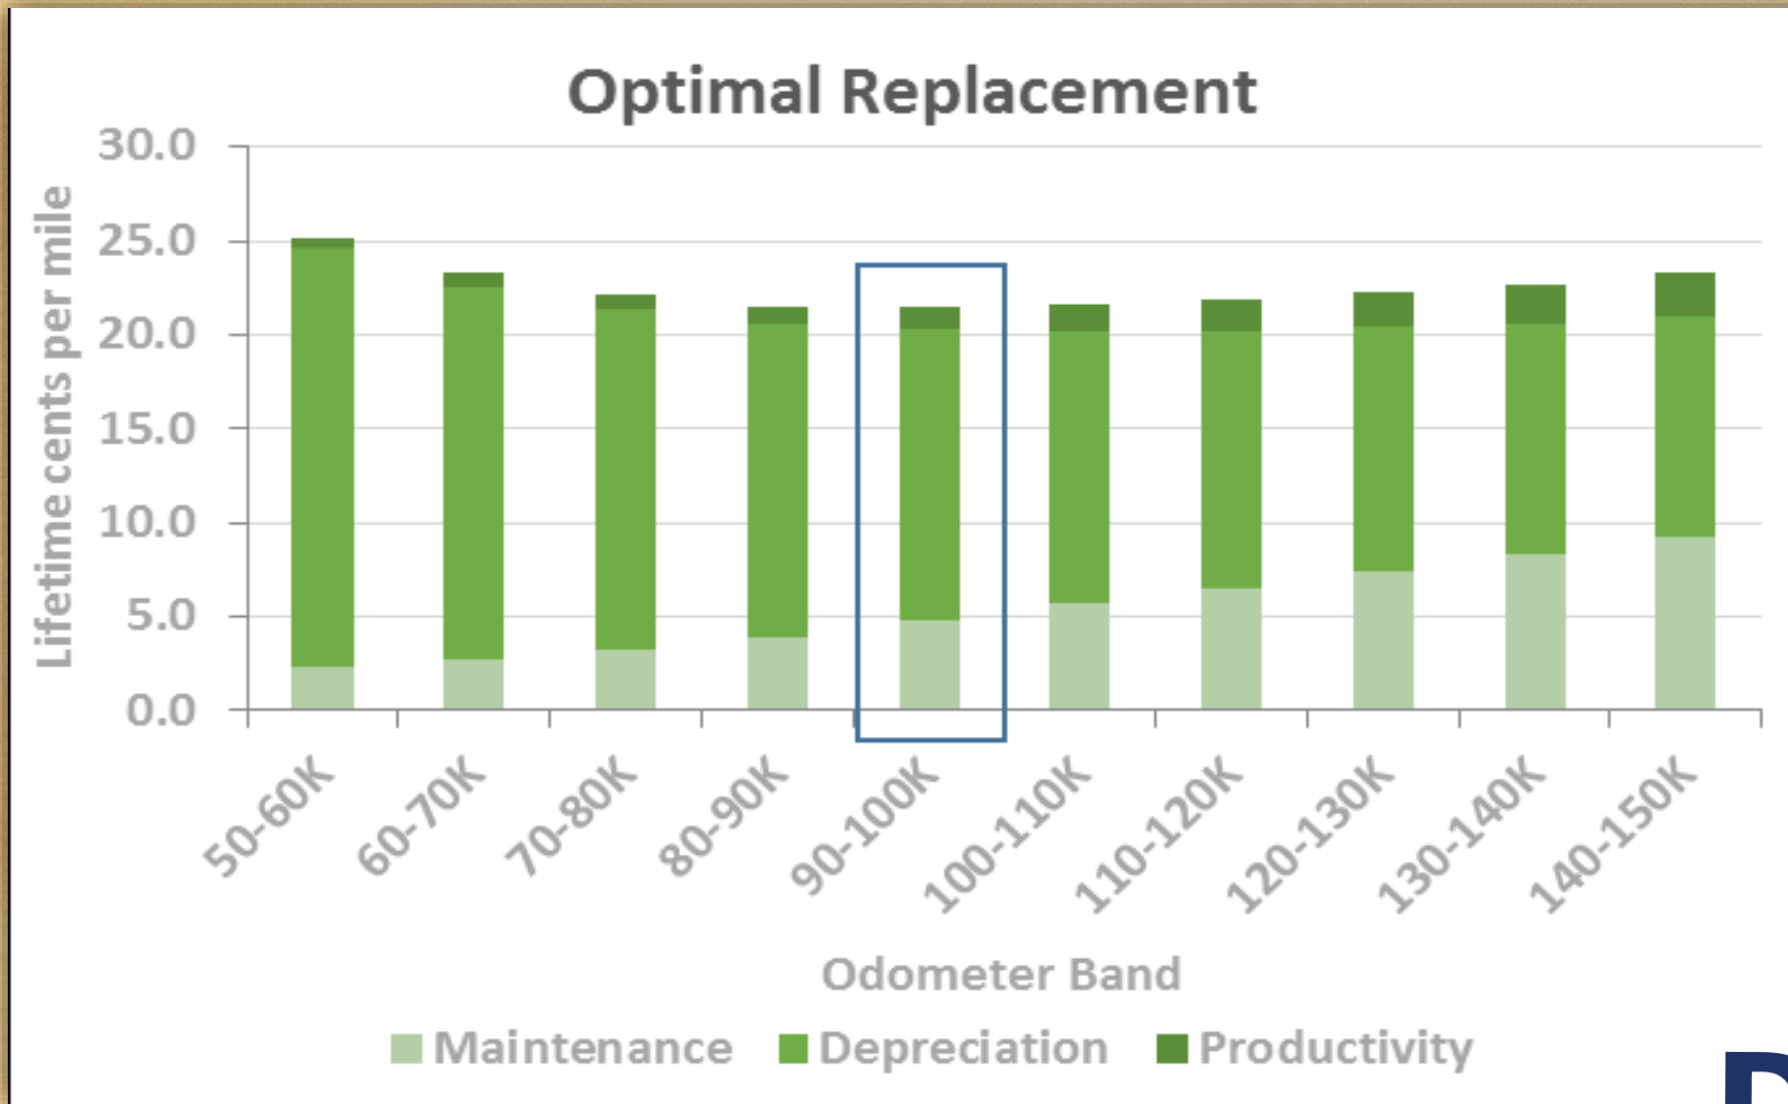

Lowest Total Cost of Ownership

- Life Cycle Audit –
 - Salvage value has greatest impact on lowering overall life cycle cost.
 - Shorten lifecycles
 - Speed up mileage accumulation

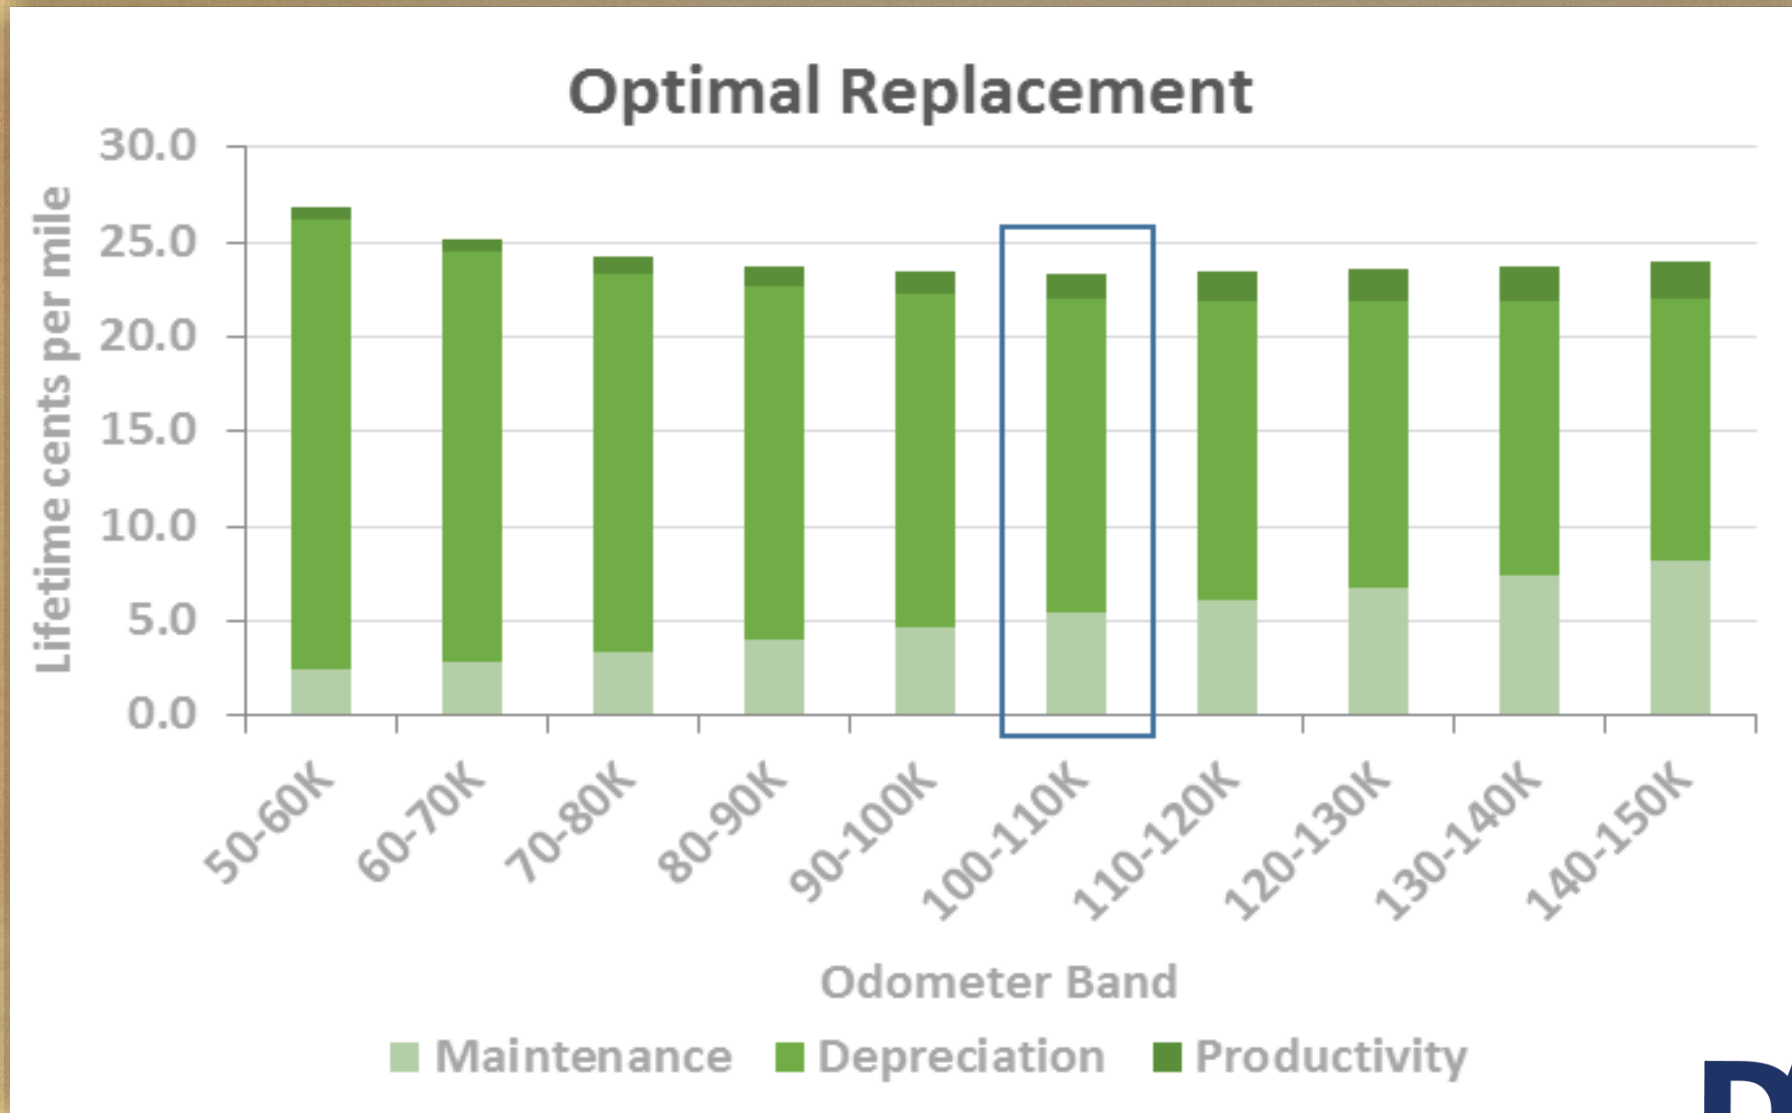

Internal Audit recommendation

“Utah develop a vehicle management system... that encourage a lower cost per mile. Fleet should meet with Agencies to develop mileage classes, standards, lease rates and terms. Times to surplus and ages could vary depending on agency needs but lease terms of 90,000 to 100,000 miles and 6 to 8 years should be considered for usual travel. Minimum mileage standards should be enforced.”

Wheels Analysis - Sedans

Wheels Analysis – Half Ton Pickup Trucks

Utah Division of
Fleet Operations

Mileage Standards

Utah's standards are generally between 5,500 – 7,032 per year

Mileage Standards for Three States

STATE	STANDARD (Minimum Miles Per Year General Purpose Sedan)
Oregon	7080*
Washington	10,000
North Dakota	14,000
	*Oregon has multiple standards.
	7080/year is the lowest

Age and Mileage Standards

- 39% of the fleet is over 6 years old
- 29% of fleet is currently identified as underutilized

Discuss Future Plans

- Vehicle Replacements caught up – start to shorten and work to update process, policies and rules.
- Better utilization standards that include time, days and miles. Work to update process, policies and rules.

New App

Can be found on Google Play and iTunes under “Utah DFO”

Enhancements to the App

- Design updates
- Maintenance Vendor Rating System
 - Price, customer experience, rework, billing
- Trip cost estimator

COGNOS Tool Training

Tamara Anton

Cognos Reporting Tool Training

URL: <https://analytics.dts.Utah.gov/ibmcognos>

- **Purpose:** Provide actionable data to Agencies, Upper Management and Fleet Managers.

Access

You must request access to Cognos through your Fleet Manager.

Fleet Managers will contact Karen Maycock, Fleet Operations at kmaycock@Utah.gov Fleet Managers will provide employee name and email address

Higher Education Access:

Current email address can be used

Go to: <https://login.Utah.gov/user/create> to create an account

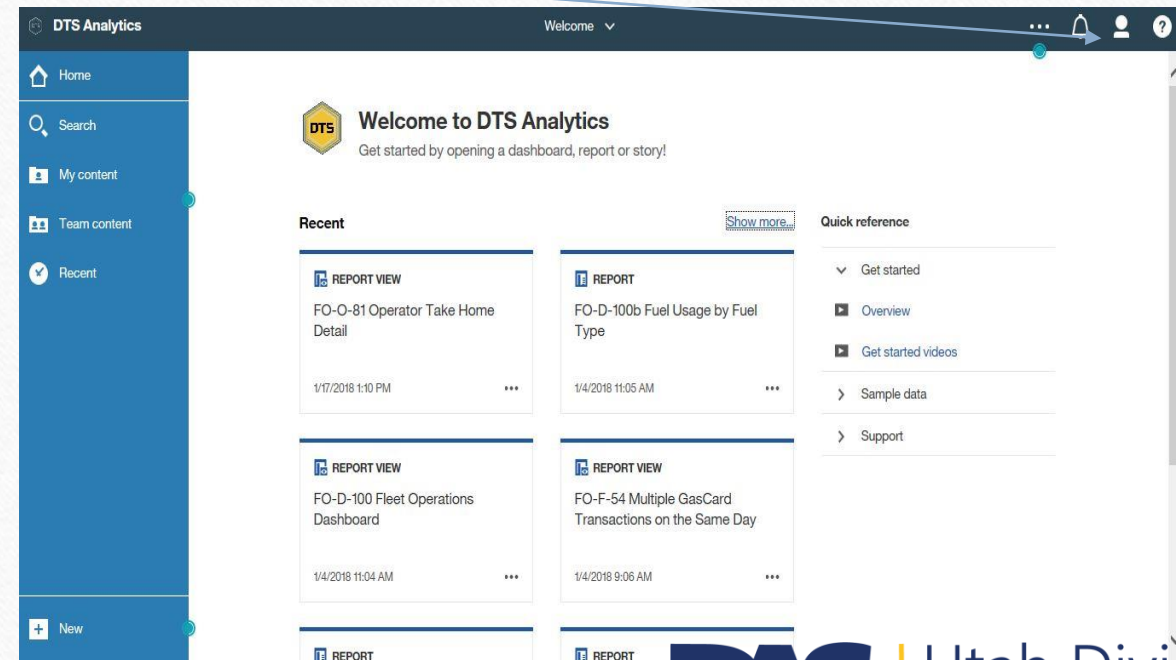

Complete form, security questions, enter code that will be sent to your email address and press activate

Follow the three steps above for **State employees**.

Sign onto Cognos using your LAN or account sign on

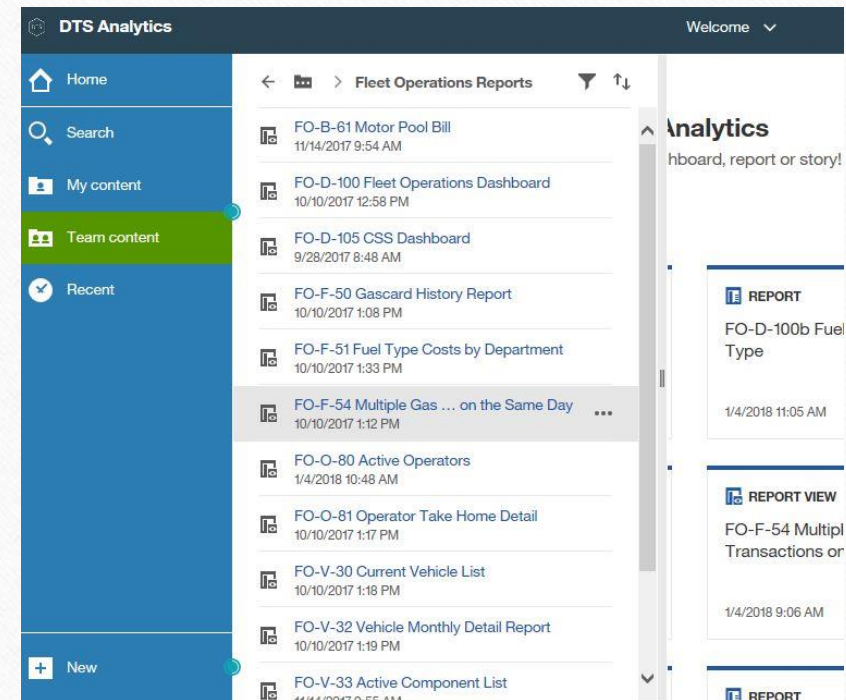

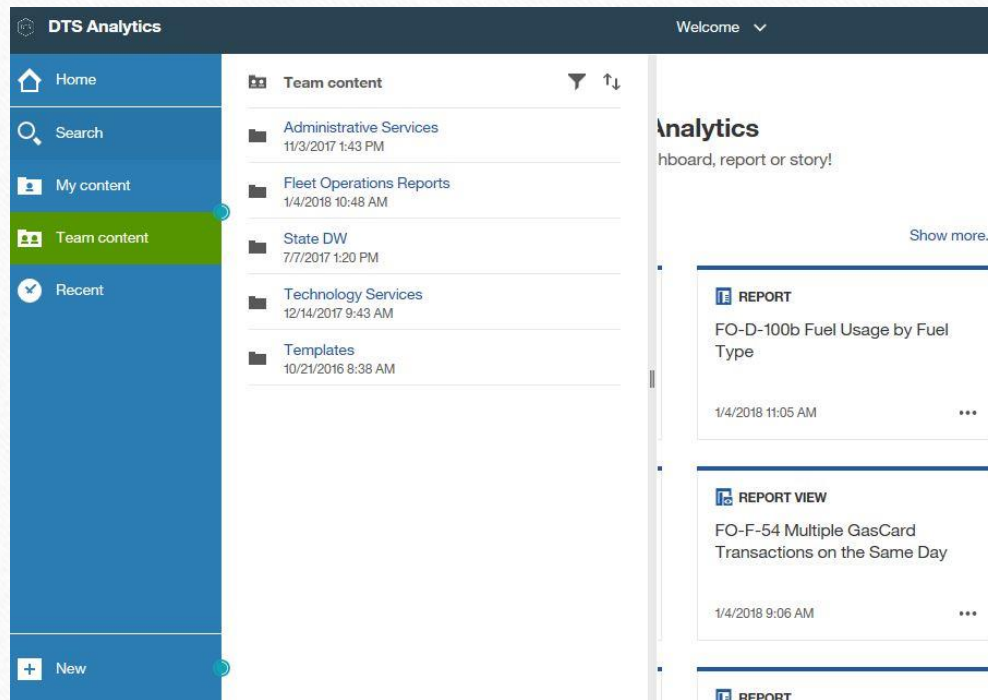

Sign on with LAN –
UMD Account Welcome page will display.
To Log Off: Click on the White Head on the right side of the banner.

(You won't have any reports in recent until you open a report)

Select Team Content, then Fleet Operations to navigate to reports.

(Your options will look different due to security restrictions)

Navigating Cognos

Home will take you back to the welcome page

The Welcome with down arrow in the banner will show you the reports you have open. You can toggle back and forth between your open reports using this down arrow.

Search: Can look for a report with a keyword

The screenshot displays the DTS Analytics Cognos dashboard. The top navigation bar includes a home icon, a search icon, and a 'Welcome' dropdown menu. The left sidebar contains navigation links: Home, Search, My content, Team content (highlighted in green), and Recent. The main content area is titled 'Fleet Operations Reports' and lists various reports with their titles and timestamps. The right sidebar shows a 'REPORT' section with a title 'FO-D-100b Fuel Type' and a 'REPORT VIEW' section with a title 'FO-F-54 Multiple Gas ... on the Same Day'. The bottom right corner features the logo for the Utah Division of Fleet Operations (DAS).

DTS Analytics Welcome ▾

Navigating Cognos

To run a report, click on the report you wish to view. This will default to HTML format. If you click on the ellipse next to the report you will receive the options: HTML, PDF, EXCEL, EXCEL Data, CSV.

Recent reports viewed can be rerun by clicking on the ellipse and choosing the format.

To rerun, you can also click on the play button next to the save icon in the banner. This will give you the same options. If you rerun a report using a different format the prompt will remain from the previous format. Choose the reset prompts and run to clear the prompt.

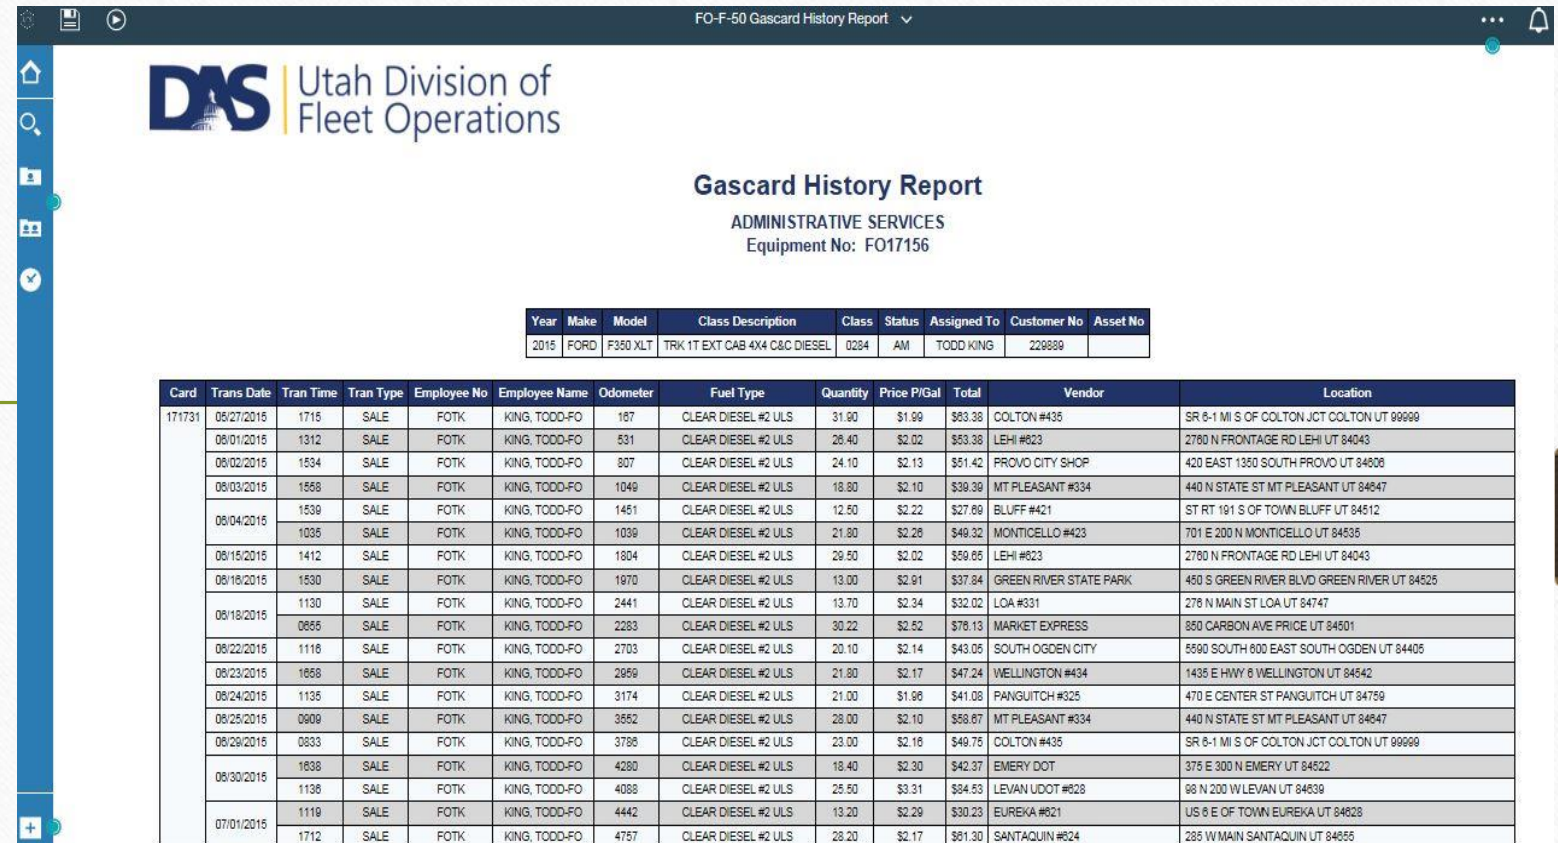

Running Cognos in HTML

HTML is the default format.
Simply clicking on a report will
run it in HTML

Or, click on the ellipse and
choose HTML

If the report has a lot of data,
you will see the page down, page
up, top, bottom at the bottom of
the page to help you navigate
through the data

Running Cognos in Excel

Choosing Excel to run your reports will keep the format of the actual cognos report. You can then sort, filter your data.

For extremely lengthy reports data may appear on several tabs when downloaded.

Running Excel data will remove the formatting and just show the data.

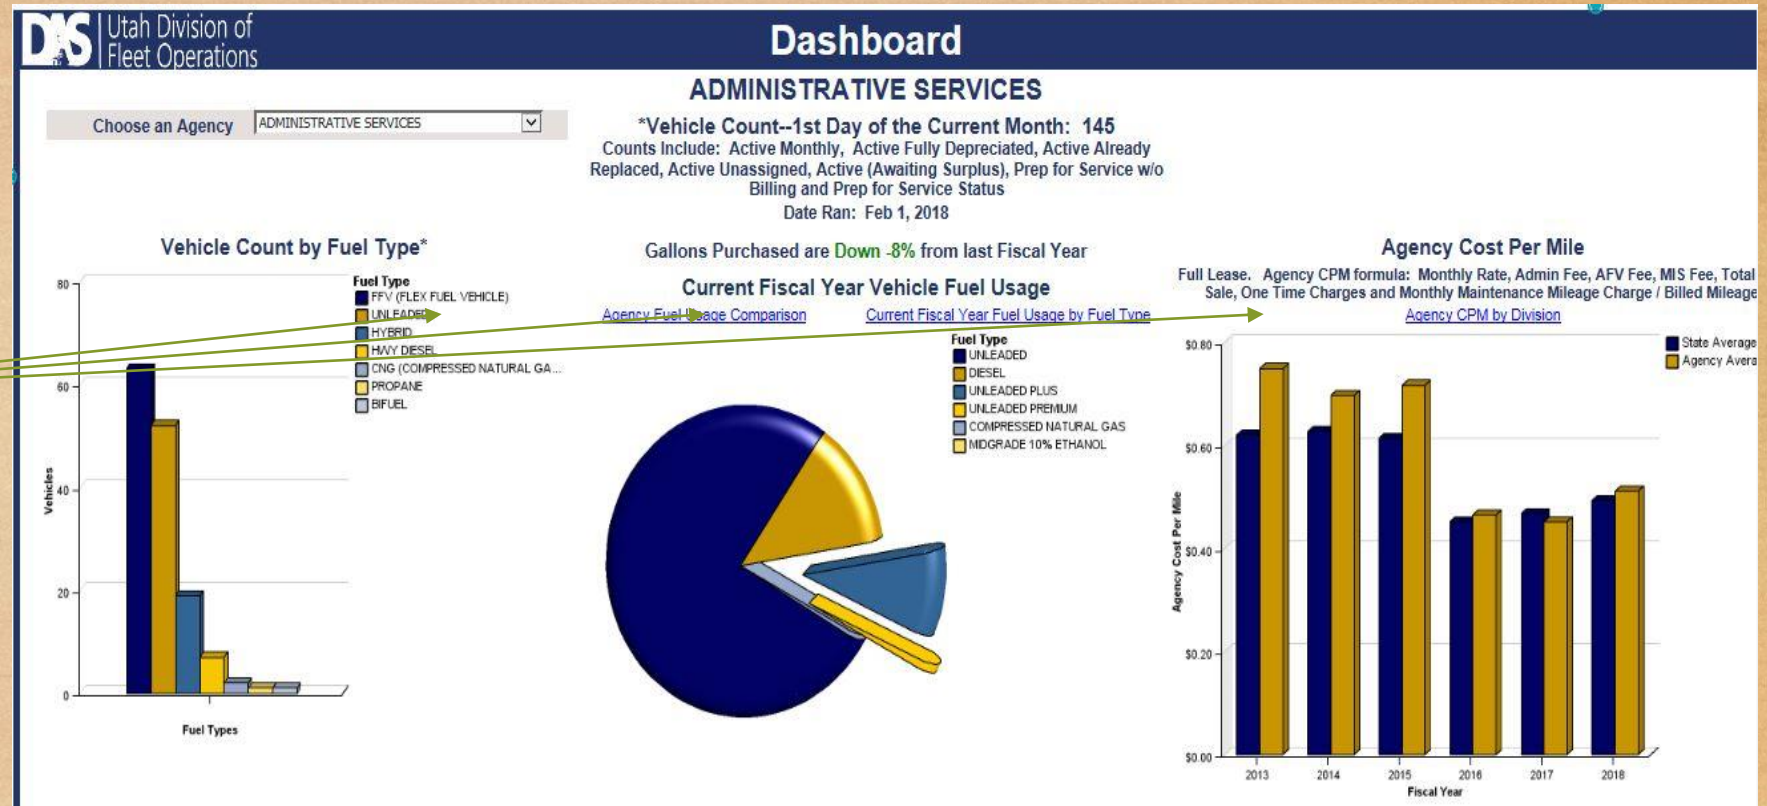

If multiple lists (like shown), choosing excel will only display the top list.

FleetFocus FA allows the State of Utah to capture and analyze all costs associated with owning and operating its fleet of vehicles, including equipment tracking, work order processing, preventive maintenance scheduling, part and fuel inventory and vehicle component warranty costs. FleetFocus FA allows the state to improve our productivity of the fleet while lowering costs and extending the useful life of our vehicles.

If you have any questions contact Amanda Ronan at aronan@utah.gov or 801-538-3586.

Data Ranges and Criteria

- Implementation date (August 1,2018) through September 30,2018
- Utilization of both Enterprise and the Key Kiosk

FleetFocus KeyValet

Choose Action

Pickup

Return

Key Valet at MASOB

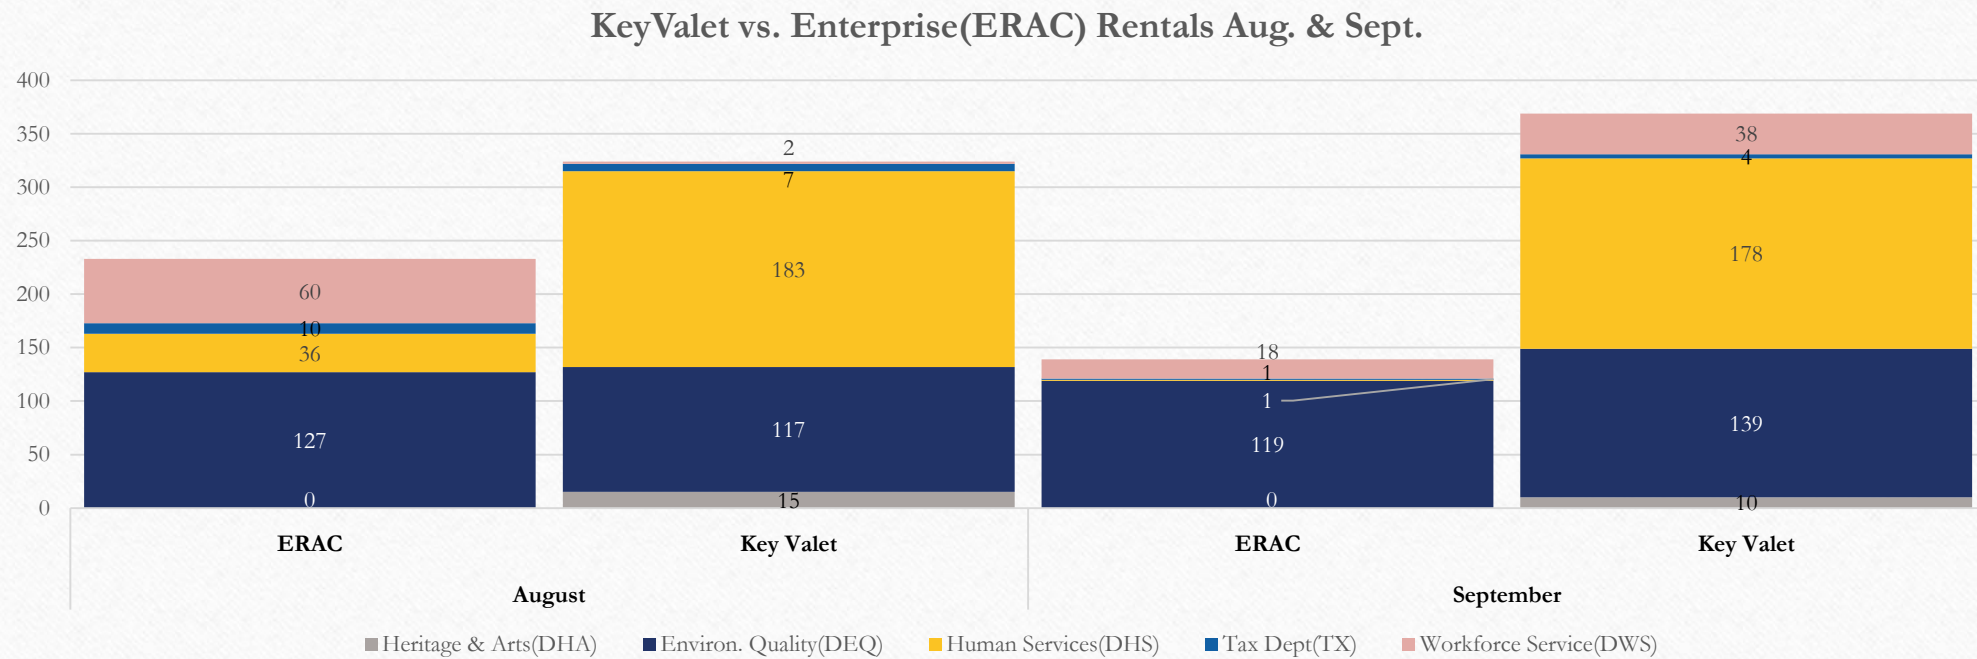

Short-Term Success

- Pick up and Return of vehicles with a confirmation code
- Vehicle pick up and return at any time
- Remote Vehicle Status
- Staff time savings as rentals are streamlined through fleet system

Obstacles

- When the system shuts down, it doesn't restart automatically.
- Understanding integration from KeyValet to Fleet system.
- KeyValet fails to recognize if a vehicle is late which affects subsequent rentals
- Vehicles are not being returned in the condition they were rented

Adoption Rates

Ride Hailing Contract

Why you might ask?

Ride Hailing Contract in Process

- RFP closed May 11, 2018
- Evaluation/Awarded July 13, 2018
- Currently in term negotiation before finalizing the contract(s).

Long Term Rental

Long Term Rental

- What we Tried

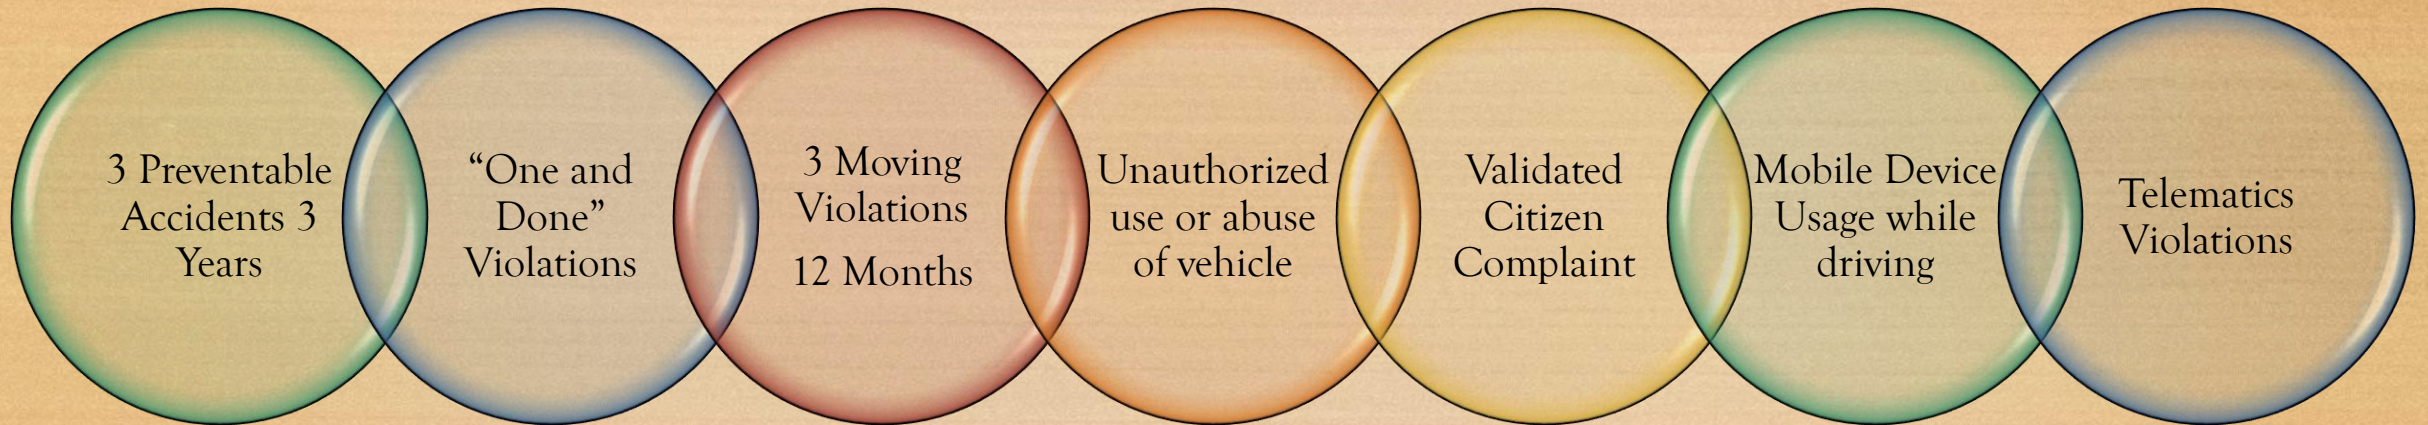

- Long term rentals for seasonal use
- UDOT Region IV rented vehicles for the road construction season
- Install equipment without drilling holes in the vehicles
- Less cost then full year's lease?
- New vehicles each year

- What we Learned

- The road construction season is too long for ROI
- Employees loved it
- Enterprise is flexible

ON 10/23/2017 AT APPROXIMATELY 1330 HOURS, THERE WAS DAMAGE TO TRAILER PLATE #XXXXXX. ELMER FUDD WAS WORKING ON A PROJECT AT 1234 LOCATION ST IN LAYTON. HE WAS TOWING THE TRAILER WITH STATE VEHICLE PLATE #XXXXXX. WHEN HE ARRIVED AT THE JOB-SITE, HE WAS ATTEMPTING TO BACK THE TRAILER UP INTO THE DRIVEWAY. HE WAS BACKING TO HIS RIGHT AND COULD NOT SEE THAT THERE WAS A TREE IN THE PATH HE WAS BACKING. THERE WAS ANOTHER CAR COMING DOWN THE STREET AND COULD NOT PASS BECAUSE VEHICLE WAS PARTIALLY BLOCKING THE ROAD. HE COULD NOT BACK ANY FURTHER BECAUSE HE HAD HIT THE TREE. HE EXITED HIS VEHICLE TO ASK THE OTHER DRIVER IF THEY COULD BACK UP SO THAT HE COULD PULL HIS VEHICLE AND TRAILER FORWARD TO ALLOW THEM TO PASS. THE OTHER DRIVER MOVED AND FUDD WAS ABLE TO PULL FORWARD AND TO THE SIDE OF THE ROAD TO ALLOW THEM TO PASS. AFTER THAT, HE WAS ABLE TO SUCCESSFULLY BACK THE TRUCK AND TRAILER UP INTO THE DRIVEWAY. THERE WAS NO DAMAGE DONE TO STATE VEHICLE PLATE #XXXXXX. FUDD GOT OUT TO INSPECT THE TRAILER. HE APPROXIMATELY 8 INCHES IN DIAMETER THAT HAD BEEN CAUSED BY

DSC is Required to Meet

R27-7-4

(4) Each agency Driver Safety Committee shall meet monthly, except in cases when there are not items to review. The items to review are the preventability determination of any accidents and any major threshold violations committed in the previous month. The Driver Safety Committee shall report to the division its accident and major threshold determination and any actions taken.

(5) If an agency Driver Safety Committee does not send the monthly Driver Safety Committee report as specified in R27-7-4(4), the initial preventability determination of any accidents will stand. A driver may appeal this accident determination to the Driver Eligibility Board pursuant to Section R27-2.

(6) The Driver Eligibility Board may recommend disciplinary actions for agency drivers to the agency when it is acting on behalf of the agency Driver Safety Committee.

If Your Agency Doesn't Have a DSC

R27-7-4(7) If an agency has fewer than five employees, the agency head may perform the duties of the Driver Safety Committee outlined in rule. In the event the agency head is the driver to be reviewed, the review may be done by the Driver Eligibility Board. Appeals from the affected agency head will be heard by the Executive Director of the Department of Administrative Services, or designee and shall follow the appeal process outlined in rule.

RIGHT TO APPEAL

Pursuant to procedures outlined in Rule R27-2, a driver declared ineligible to operate a state vehicle by the Driver Safety Committee may appeal that determination to the Driver Eligibility Board. An appeal to the Driver Eligibility Board must be made in writing within 30 days from the date the Driver Safety Committee issues its decision.
